IMPORTANT INSTRUCTIONS

NOTICE

Please read and save these important safety instructions!

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. To Reduce The Risk of Fire or Electric Shock, Do Not Use This Fan With Any Solid-State Speed Control Device, other than the one supplied.
2. This product is intended for household use ONLY and not for commercial, industrial or outdoor use.
3. If the supply cord is damaged, it must be replaced by the manufacturer its service agent or a similarly qualified person in order to avoid a hazard.
4. This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.
5. Close supervision is necessary when any appliance is used by or near children.
6. Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Arrange cord away from traffic area and where it will not be tripped over.
7. This product employs overload protection (fuse). A blown fuse indicates an overload or short-circuit situation. If the fuse blows, unplug the product from the outlet. Replace the fuse as per the user servicing instructions (follow product marking for proper fuse rating) and check the product. If the replacement fuse blows, a short-circuit may be present and the product should be discarded or returned to an authorized service facility for examination and/or repair.
 - a) Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
 - b) Avoid contact with moving fan parts.
8. To avoid overturning, be sure the fan is on a stable surface when operating it.
9. To reduce the risk of electric shock, DO NOT use the fan by a window.
10. Place the fan on a dry level surface.
